The Case Management program is designed for medical practitioners who wish to improve their diagnostic accuracy using dermoscopy. Facilitated entirely online with personal 1:1 mentorship from dermoscopy expert A/Prof Andreas Blum, there is an opportunity to consider and interpret dermoscopic images and then receive feedback on features and indicators.

## MENTORING PLAN

- Analyse and reflect on dermoscopic images
- Explain key features using a diagnostic algorithm
- Provide a diagnosis with medical reasoning
- Receive feedback from your mentor
- Document what you have learned
